In my opinion it is very plausible....I am an US Army vet and have served both in Afghanistan and Iraq....I wasn't aware of anything like this going on there but it would not surprise me to learn the Brits were doing this in Northern Ireland back in the day....plus it was compartmentalized so not everyone knew the whole deal...these guys who were the actual shooters probably knew the most....hence the reason why they were a such a small group....killing people in combat is one thing, assassinations are another....this man obviously was not a sociopath so it got to him in a big bad way....this guy is brave...nobody who was part of something like this would want to tell anyone about it especially because you could get in big trouble....unless of course the government doesn't want to acknowledge it so it appears he is off the legal hook....fighting the demons is another....the comments by Captain Holroyd are also compelling where he says he spoke to guys involved in this system who confirmed it was true....15 of 15 people found the following review helpful. Vehicle MechanicBy Jim[...]***QUOTE: "THE NEMESIS FILE: A TRUE STORY OF AN EXECUTION SQUAD***The Royal Ulster Constabulary has for some time been making enquiries into alleged serious criminal offences, primarily as a result of allegations made in the book "The Nemesis File: the true story of an Execution Squad" which is published by Blake Publishing.As part of our continuing enquiries, and having regard to the seriousness of the allegations made in the book, the book's author was arrested by RUC officers under the Prevention of Terrorism Act and was interviewed at Castlereagh Police Station, Belfast.Enquiries into the matter have now been completed and we are satisfied that the allegations contained in the book are not true in fact or substance and this includes an assertion that the author was at some time a member of the Special Air Services Regiment. The RUC is satisfied that the author has not been concerned, either directly or indirectly, in the commission of any serious criminal offence whilst serving in the Province during the period February – June 1972 when he served as a vehicle mechanic with the Royal Electrical and Mechanical Engineers. The RUC considers the book "The Nemesis File: the true story of an Execution Squad" as a work of fiction and accordingly the investigation is now closed".***UNQUOTE***2 of 2 people found the following review helpful.
